SCHOOL REPORT.

The majority of the schools of the town were a success during the past year.

There were twenty-seven weeks of school, the same as last year.

In two school districts sickness prevented the completion of the full number of weeks.

This long term of school was made possible, partly by the aid of the "apportionment fund" furnished by the state. As the amount of this fund coming to the town is reckoned on the per cent of attendance of all the schools in the town, it is easily seen that every scholar who absents himself from school is depriving the town of a portion of that fund, so it is hoped that parents will see that their children attend school every session that it is possible for them to do so.

In reading, there has been, in my opinion, a great improvement, especially among the younger children. This is owing in a large measure to the new Baldwin readers introduced by the schoolboard during the year, much interest having been taken in them by the children.

With the exception of the schoolhouse in district number eight, the schoolhouses have been put in good repair, new shades having been added to some, making a great improvement in the looks of the room.

I thank the teachers, parents and children for making my term on the school board a pleasant one.

GEORGE D. PATTEE,

Chairman.
